

● Snap a note. Send a quote. Win the job.

The AI quote generator that turns a **scribbled note** into a polished quote in seconds

Describe a job in plain language — or photograph a handwritten note from the jobsite — and Jotquote returns a complete itemized quote: line items, your rates, scope-of-work wording, tax and total. Then send it, get it e-signed, invoice it and get paid.

The screenshot shows the Jotquote website interface. At the top, there's a navigation bar with the Jotquote logo, links for Features, By trade, Templates, Pricing, FAQ, Blog, and Help, and buttons for Log in and Start free. Below the navigation bar, there's a hero section with the headline "The AI quote generator that turns a **scribbled note** into a polished quote in seconds". To the right of the headline, there's a visual representation of the feature: a handwritten note on a sticky note that says "repaint 3 bedrooms + hallway premium p/ - on-site note" is being scanned by a device, and a digital quote is being generated. The quote shows a line item: "3 bedrooms + hallway 1 \$320.00". Below the headline, there's a paragraph describing the service: "Describe a job in plain language — or photograph a handwritten note from the jobsite — and Jotquote returns a complete itemized quote: line items, your rates, scope-of-work wording, tax and total. Trade-aware and multi-language."

What is Jotquote — and how it works

Jotquote is AI-powered quoting, estimating, invoicing and proposal software built for trades, service businesses and freelancers. It replaces slow spreadsheets and blank templates with an engine that understands your trade, applies your own rates and writes professional wording for you.

- 1 Describe the job — or snap your notes**
Type a sentence, or photograph the handwritten note from the jobsite. Jotquote's AI reads it directly — no forms, no OCR apps.
- 2 AI builds the priced, itemized quote**
Line items, quantities, your saved rates, professional scope-of-work wording, tax and total — in seconds. Every field stays editable.
- 3 Send a branded PDF or trackable link**
Your logo, brand color and template. Clients view on any device — you see the moment they open it.
- 4 Win the job, invoice & get paid**
Clients accept and e-sign online — no login needed. One click turns the quote into a numbered invoice with a pay-online button.

The screenshot shows the Jotquote website's 'Free invoice generator' tool. The header includes the Jotquote logo, navigation links (Features, By trade, Templates, Pricing, FAQ, Blog, Help), and a 'Log in' link next to a 'Start free' button. The main heading is 'FREE TOOL' followed by 'Free invoice generator'. Below this is a subheading: 'Create a professional invoice and download a branded PDF in seconds — free, no signup, no watermark. Fill it in below and hit download.' The form is divided into two main sections: 'Your business' and 'Bill to'. The 'Your business' section has fields for 'BUSINESS NAME' (Acme Plumbing), 'EMAIL' (you@business.com), 'PHONE' (+1 555 0100), and 'ADDRESS' (123 Main St, City). The 'Bill to' section has fields for 'CLIENT NAME' (Client or company), 'EMAIL' (client@email.com), and 'ADDRESS' (Client address). Below these sections, the 'Invoice details' section is partially visible.

Clean, focused screens — everything runs in the browser, nothing to install.

The payoff: what used to take 30 minutes of typing takes under a minute — and the first professional quote a customer receives usually wins the job.

~2 sec

Everything you need to win the job

One tool covers the whole journey — from the first scribbled note to the final paid invoice.

AI quote generator

A one-line job description becomes a complete, priced quote with scope wording.

Photo-to-quote

Snap up to 4 photos of a handwritten note or sketch — the AI reads them directly.

Your price book

Saved services, labor rate, material markup, currency and tax price every quote.

12 premium templates

Branded documents with your logo and colors that look like a much bigger firm.

Trackable links

Know the instant a client opens your quote — follow up at the perfect moment.

Native e-signature

Clients accept, decline or sign on a clean no-login page, from any device.

Automated follow-ups

Reminders chase still-open quotes; expiry dates create natural urgency.

Quote-to-invoice

One click converts an accepted quote into a matching numbered invoice.

Get paid faster

A pay-online button via your own payment link, plus deposit requests on acceptance.

Client CRM built in

Store clients, scan business cards with AI, and track your pipeline stats.

And it all connects: the note becomes a quote, the quote becomes a proposal or an invoice, and the invoice carries your payment details — one flow, zero re-typing.

What you won't find in other quoting apps

Plenty of tools make documents. These are the things only Jotquote does — the reasons businesses switch.

1

A scribbled note becomes a quote

Multimodal AI reads handwriting straight from a photo and returns a priced, itemized quote — most quoting tools still start from a blank form.

2

Live web price verification

When a job includes third-party items (domains, hosting, materials), the AI checks current real-world prices instead of guessing.

3

Trade-aware for 44+ trades

Painters, electricians, plumbers, cleaners, photographers, planners, consultants — it already knows your line items.

4

Truly multi-language

Generate quote content in 97 languages, with fully localized document labels in 15 — serve customers others can't.

5

AI proposals from the same quote

Turn any quote into a full proposal — overview, approach, timeline and why-us — without starting from scratch.

6

Genuinely free to start

5 free quotes with no card, plus a free public invoice generator. Try the magic before you pay a cent.

Jotquote vs. typical quoting suites

You don't need a heavyweight \$50–100/month suite to send professional quotes. Here's how Jotquote stacks up against typical quoting and field-service tools.

	Jotquote	Typical quoting suites
Free plan to start	5 quotes, no card required	Often a short trial only
AI writes the quote for you	Included on every plan	Add-on or higher tier
Handwritten note becomes a quote	Built in	Not available
Multi-language quotes	97 languages	Limited
Online acceptance & e-signature	Included (Pro)	Higher tiers
Deposit & pay-online links	Included	Often missing
Entry price	\$0 to \$15/mo	Often \$50–100/mo

AI does the typing

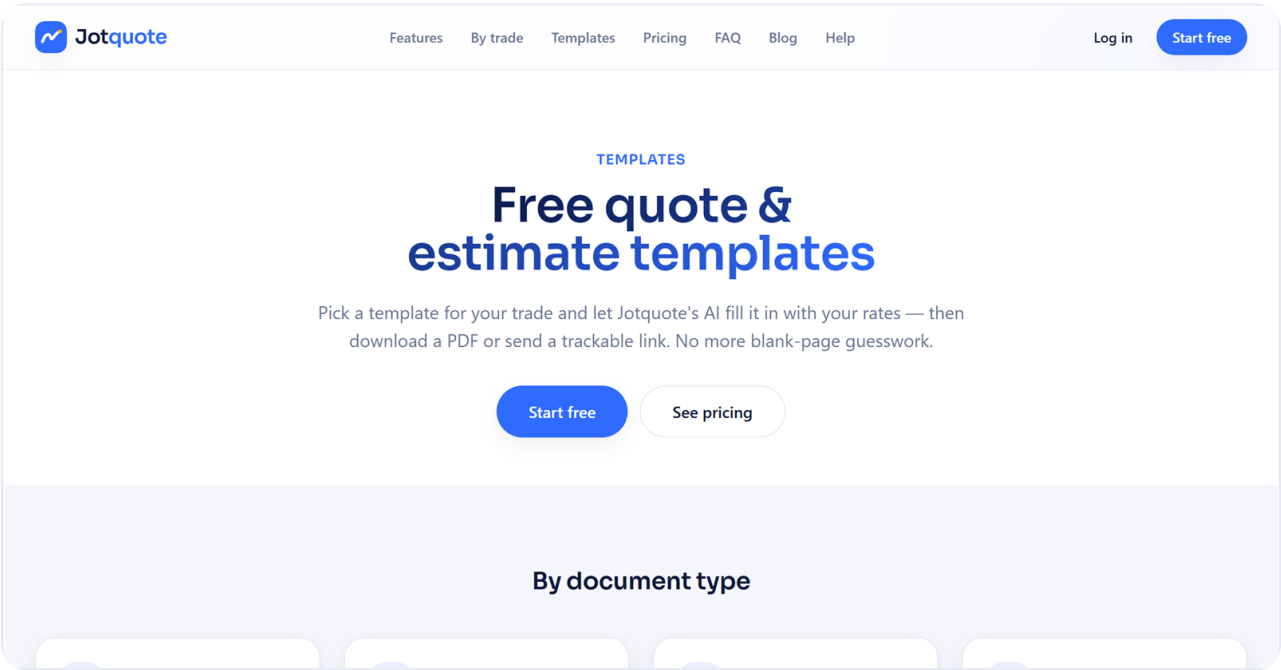

Describe the job or snap a note — no building line items by hand.

A fraction of the cost

Start free, stay on a simple flat plan. One won job covers the month.

Running in minutes

No onboarding project. Set your rates once, quote the same day.

Free quote & estimate templates for every trade — AI fills them in with your rates.

Comparison reflects typical positioning of general quoting/field-service suites as of 2026; individual products vary. Verify current details with each vendor.

PRICING

Simple pricing that pays for itself

Every plan includes the AI quote generator. Annual billing saves about 20%. Cancel anytime — checkout secured by PayPal.

Free

\$0 forever

- ✓ 5 AI quotes to try it out
- ✓ Branded PDF + shareable link
- ✓ No card required

Solo

\$19 /mo · \$15/mo billed annually

- ✓ Up to 100 quotes / month
- ✓ Your logo & branding
- ✓ Multi-language quotes
- ✓ PDF + trackable web link

Pro

MOST POPULAR

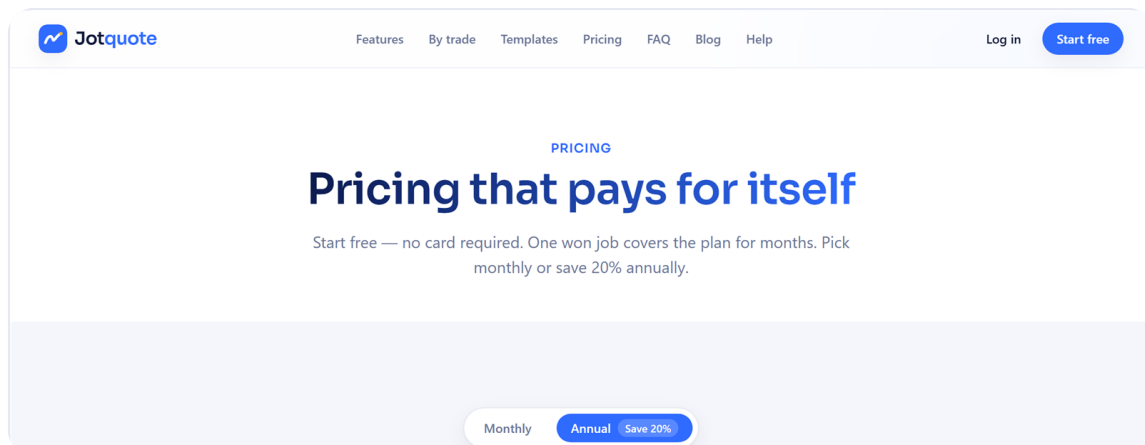

\$39 /mo · \$31/mo billed annually

- ✓ Up to 250 quotes / month
- ✓ E-signature & accept online
- ✓ Deposit / payment requests
- ✓ Follow-up automation
- ✓ Quote-to-invoice + AI proposals

Agency

\$99 /mo · \$79/mo billed annually

- ✓ Unlimited quotes
- ✓ Multiple team members
- ✓ For teams & multiple brands

The honest maths: on Solo at \$19/month for up to 100 quotes, a quote costs about 19¢ — and a single won job covers the whole month many times over.

QUESTIONS

Frequently asked questions

Is it really free to start?

Yes — the free plan includes 5 quotes with no card required. Paid plans unlock more quotes, your branding, online acceptance and more.

Can it really read my handwriting?

Yes. Photos go straight to a multimodal AI that reads the handwriting — extracted details appear in an editable form for you to confirm before pricing.

Do I have to set up my own prices?

You set your hourly rate, material markup and common services once, and Jotquote uses your numbers on every quote.

Can my clients accept and pay online?

Every quote gets a trackable link where clients accept and e-sign with one click. Add your payment link and invoices get a Pay-online button — you can also request a deposit on acceptance.

Which trades does it support?

44+ trades and service businesses — from painters, electricians and plumbers to photographers, event planners, consultants and agencies.

Does it work on my phone?

Yes — Jotquote runs in any mobile or desktop browser with nothing to install, so you can quote before you leave the site.

HOW TO GET STARTED
